CIO Milestone Programme

About the Programme

The CIO Milestone Programme aims to enable CIOs to adopt a strategic role within their agencies to influence and drive digitalisation agenda by leveraging innovative use of technologies. The programme, paced out over seven months, is designed for CIOs and IT leaders to acquire deeper understanding of emerging and evolving facets of digital leadership; digital business models, sharpen your ability for high–impact stakeholder influence and distil the learnings from public and private sector digitalisation case studies that will benefit your agencies directly.

> **"** This is a for–practitioner–by–practitioner programme where our participants are actively engaged in sharing, discussions and learning from leaders and peers from public and private sector on how they can lead and drive digital transformation for their agencies. **"**

Tan Bee Teck, CIO Milestone Programme Director, Senior Director (Education Cluster/App Portfolio Remake) and Technology Management Practice Lead/CIO Chapter Lead, GovTech
